

**Nikbakht, A. and M. Kafi. 2010. The *Rosa damascena* of Iran.** Isfahan University of Technology Pub. Isfahan. Iran. 161p. (In Persian).

## The *Rosa damascena* of Iran

### Table of contents

#### Chapter1- Origin and genealogy of damask rose

- 1-1- Origin and history of damask rose cultivation
- 1-2- Genealogy
- 1-3- Distribution and botany of roses species in Iran

#### Chapter 2- Cultivation of damask rose

- 2-1- Habitants and cultivation areas of damask rose in Iran
  - 2-1-1- Isfahan province- Kashan zone
    - 2-1-1-1- History of damask rose cultivation in Iran
    - 2-1-1-2- Side industries in Kashan zone
  - 2-1-2- Fars province
  - 2-1-3- Kerman province
  - 2-1-4- East Azerbaijan province
  - 2-1-5- Markazi province
  - 2-1-6- Khorasan province
  - 2-1-7- West Azerbaijan province
  - 2-1-8- Hamadan Province
  - 2-1-9- Semnan province
  - 2-1-10- Golestan province
- 2-2- Cultivation and growing damask rose
  - 2-2-1- Climate and Soil conditions
  - 2-2-2- Preparing soil for cultivation
- 2-3- Propagation
- 2-4- Irrigation
- 2-5- Dry farming of damask rose
  - 2-5-1- Site selection for damask rose dry farming
  - 2-5-2- Timing of damask rose dry farming
  - 2-5-3- Stages and important notes in damask rose dry farming
  - 2-5-4- Methods in humidity preservation in damask rose dry farming
- 2-6- Nutrition and fertilization
- 2-7- Pruning
- 2-8- Harvesting
- 2-9- Postharvest physiology
- 2-10- Pests and diseases

- 2-10-1- Pests of damask rose
- 2-10-2- Diseases of damask rose
- 2-10-3- Other damaging factor
- 2-11- New methods in cultivation damask rose
  - 2-11-1- Application plant growth regulators

### Chapter 3- Rose water and essential oil

- 3-1- Extraction, distillation and preparation rose water and essential oil
- 3-2- Characteristics and components of rose water and essential oil
  - 3-2-1- Rose water
  - 3-2-2- Essential oil of damask rose
- 3-3- damask rose products
  - 3-3-1- Applications of damask rose essential oil
  - 3-3-2- Hygienic and therapeutic effects of damask rose products
  - 3-3-3- Bud and petal
  - 3-3-4- Other applications of damask rose products

### Chapter 4- Breeding and new methods in propagation

- 4-1- Damask rose breeding and new cultivars
- 4-2- Hybridization process
- 4-3- Damask rose tissue culture and micropropagation
  - 4-3-1- Components of media and other effective factors in damask rose micropropagation

### Chapter 5- Economical Considerations

- 5-1- Economical importance and production amount in Iran and the World
- 5-2- Flower production and flower farm issues
- 5-3- Rose water and essential oil processing
